No file : Brown

an interactive locative experience

No file

No file: Brown is an immersive historiographic media archive that you can explore as you move through the ELO.AI conference venues and the Brown University campus and environs. Your iPhone will alert you to points of entry, where you can access and contribute media artifacts related to the *No File* narrative.

Created by Kiki Benzon & Jeff Watson ***Technology*** iPhone OS 3.0+, 7scenes ***Special Thanks*** Ronald Lenz, The Waag Society, 7scenes ***More*** kikibenzon. com, remotedevice.net

1. Install the 7scenes iPhone app (search the App Store for "7scenes").

Invite code:

2. Run the app. Click on "Sign up now!" Use your invite code to create an account and log in.

3. Touch "Nearby" and select "No File" to begin the experience. If you do not see this screen, try clicking the icon in the upper right corner.
